Title:	Trust Research and Innovation Strategy 2017- 2022		
Author/Responsible Director: Prof Tanweer Ahmed/ Dr Neill Hepburn			
Purpose of the Report: To allow the Board to discuss the proposed Trust Research and Innovation Strategy (2017-22).			
The Report is provided to the Board for:			
Decision		Discussion	√
Assurance		Information	
Summary/Key Points:			
<ul style="list-style-type: none"> ➤ The Trust Research and Innovation (R & I) committee discussed and approved the new Strategy on Thursday 15th June 2017 and recommended to present to the Quality Governance and the Trust Board. ➤ The R & I Strategy was also approved by the Trust Medical Director, Dr Neill Hepburn. ➤ The ULHT ambition for research and innovation is to ensure that we feature nationally and internationally on the research landscape and to deliver research which provides benefit to patient care and contributes to learning in regard to the provision of healthcare within a rural setting. ➤ To ensure that the clinical research is fully embedded into the Trust strategic plans and the Sustainable Transformation Plan for Lincolnshire and to ensure contribution to the transformation of services. 			

- To further develop a research facility for Lincolnshire to lead innovation and support the developments around rural health.
- To engage the wider agenda to assist in the development and to ensure that the outcomes benefit the Lincolnshire economy and contribute to the regional and national developments within the NHS.
- To contribute to the financial health of the Trust

Recommendations:

The Board is asked to approve the R & I Strategy.
