

EQUALITY ANALYSIS INITIAL ASSESSMENT FORM

Title: Risk Management			
Risk management is the recognition and effective in	management of all threats and		
opportunities that may have an impact on ULHT's	reputation, its ability to deliver its		
statutory responsibilities and the achievement of its	s objectives and values.		
Describe the function to which the Equality Ana	alysis Initial Assessment		
applies:			
☐ Service delivery ☐ Service Improveme	nt		
□ Policy □ Strategy	☐ Procedure/Guidance		
☐ Board Paper ☐ Committee / Forum	Paper ☐ Business Case		
☐ Other (please specify) Risk Management Governance			
Is this assessment for a new or existing	✓ Existing		
function?			
Name and designation of function / activity	Risk Management Team		
Lead professional:	Head of 2021 Programme		
•			
Pusiness Unit / Clinical Directorates	Doputy Chief Executive		

What are the intended outcomes of this function / activity? (*Please include outline of function objectives and aims*)

The risk management processes covers all Clinical and Executive Directors who will have risk registers that will feed up into the Corporate Risk Register and the Strategic Risk Register, which will be managed and coordinated through the Strategic Risk Management Group. The risk assessment process includes domains for patient safety. There is also ongoing work to ensure that the Risk Management Governance has a clear link through to the Clinical Quality and Corporate Governance for the Trust. The Trust will:

- Actively pursue the identification of uncertainties in order that threat can be mitigated and opportunity realised.
- Continue to develop a risk and safety aware culture throughout the Trust.
- Ensure that a consistent and integrate approach to risk management is embedded in the day-to-day working practices of the organisation at all levels, embracing clinical, non-clinical and corporate risks.
- Ensure that the risk management process covers the full range of the Trust's activities.
- Continue developing the systems and structures in place for identifying, assessing, mitigating and reporting risks.

Appendix A Page 1

- Ensure that the Board and senior management are provided with adequate assurance that risks are being appropriately identified, assessed, and mitigated.
- Comply with all external requirements and standards in relation to risk management.

Who will be affected? Please describe in what manner they will be affected?			
Patients / Service Users:	Staff:	Wider Community	
Patient safety risks will be	Staff risks will be identified	There will be wider horizon	
identified		scanning for impact on the	
		communities	

What impact is the function / activity expected to have on people identifying with any of the protected characteristics (below), as articulated in the Equality Act 2010? (Please tick as appropriate)

response and the evidence used in your assessment.
