Title:	Board Assurance Framework (BAF) & Corporate Risk Report			
Responsible Director: Dr Neill Hepburn, Medical Director				
Author: Paul White, Risk Manager				
Purpose of the Report:				
<p>The purpose of this report is to enable the Trust Board to:</p> <ul style="list-style-type: none"> • Review the Board Assurance Framework (BAF) and the current level of risk exposure as recorded in the Trust's Corporate Risk Register • Review progress with implementation of the full rebuild of corporate and operational risk registers throughout the Trust 				
The Report is provided to the Board for:				
	Decision	<input type="checkbox"/>	Discussion	<input checked="" type="checkbox"/>
	Assurance	<input checked="" type="checkbox"/>	Information	<input type="checkbox"/>
Summary/Key Points:				
<ul style="list-style-type: none"> • The new Board Assurance Framework (BAF) continues to be developed, with clear links to the Corporate Risk Register • The most significant corporate risks (all rated Very high risk) currently recorded are: <ul style="list-style-type: none"> ○ Managing emergency demand ○ Delivery of the financial recovery plan ○ Substantial unplanned expenditure or financial penalties ○ Workforce capacity & capability (recruitment, retention & skills) ○ Compliance with fire safety regulations & standards ○ Compliance with clinical governance regulations & standards • The current risk profile illustrates the extent to which the achievement of the Trust's objectives are at risk, with 28 out of 56 corporate risks rated High or Very high • The Corporate Risk Register has been completely rebuilt in line with the new Risk Management Strategy and Policy • The process of rebuilding all of the Trust's operational risk registers (at directorate level) is now complete 				
Recommendations				
That the Trust Board considers the content of the report and advises if any further action is required.				

<p>Strategic Risk Register</p> <p>Corporate and operational risk registers are aligned with the Board Assurance Framework (BAF) to enable the Trust Board to evaluate the extent to which its strategic objectives are at risk..</p>	<p>Performance KPIs year to date</p> <p>Appropriate KPIs for risk management have been incorporated within the revised Risk Management Policy and will be reported regularly to the Audit Committee.</p>
<p>Assurance Implications</p> <p>This report enables the Trust Board to review the effectiveness of corporate risk management in order to take assurance regarding the effectiveness of current risk mitigation plans and to consider the extent of risk exposure at this time.</p>	
<p>Patient and Public Involvement (PPI) Implications</p> <p>The effectiveness of the Trust’s risk and corporate governance arrangements is reported through the Annual Governance Statement (AGS) and is included in the opinion of both internal and external audit. As such, it may influence the degree of confidence that patients and members of the public have in the Trust.</p>	
<p>Equality Impact</p> <p>The Trust’s Risk Management Policy has been assessed for equality impact and no issues were identified.</p>	
<p>Information exempt from Disclosure – No</p>	
<p>Requirement for further review? No</p>	

1. Purpose of the Report

- 1.1 The purpose of this report is to enable the Trust Board to:
- Review the Board Assurance Framework (BAF) and the current level of risk exposure as recorded in the Trust’s Corporate Risk Register
 - Review progress with implementation of the full rebuild of operational risk registers throughout the Trust

2. Recommendations

- 2.1 That the Trust Board considers the content of the report and advises if any further action is required.

3. Reasons for Recommendations

- 3.1 It is essential that the Trust Board maintains an awareness of the extent of risk exposure within the Trust and has confidence in the effectiveness of the Trust’s risk management arrangements.

4. Summary of Key Points

Board Assurance Framework (BAF)

- 4.1 The BAF is an important document that enables the Trust Board to maintain effective oversight of significant risks to its strategic objectives and priorities.
- 4.2 Each objective within the BAF is assigned to a lead assurance committee, which reviews evidence and reports from lead executives on performance, issues and risks. This enables the committee to provide an appropriate level of assurance to the Trust Board in relation to the management of risks to each objective in the BAF.
- 4.3 A revised BAF for 2018/19 continues to be developed and is attached as **Appendix I** for the consideration of the Trust Board. Corporate risks that are considered to be of strategic significance to the achievement of each objective are recorded on the BAF for regular review by the lead committees.
- 4.4 Each lead committee has been invited to review the objectives for which it is the identified lead and, on the basis of details from the corporate risk register and evidence provided by lead executives, determine:
- If there are any assurance gaps that impact on the committee's ability to evaluate the management of risks to that objective
 - Where there are any assurance gaps, what action will be taken to address them
 - If there are any corporate risks that should be added to or removed from the BAF, making a recommendation to the Trust Board regarding any changes
 - An appropriate assurance rating to be assigned to each objective (GREEN = assured; AMBER = inconclusive; RED = not assured), to signify the extent to which the committee is satisfied that risks to the objective are being managed effectively, i.e. there are appropriate mitigation plans that are progressing, even if the current level of risk exceeds the Trust's risk appetite

Corporate risk register

- 4.5 A corporate risk is defined as a risk that would have consequences for the objectives of more than one directorate, or for the whole Trust. All standard corporate risks have a Severity rating of 4 and are assigned to the lead executive as responsible manager and a senior operational manager as risk lead.
- 4.6 Wherever possible, corporate risks are also assigned to a lead management committee for regular review and oversight as well as upward reporting to the lead assurance committee.
- 4.7 All risks on the corporate risk register are recorded on and managed using the Datix system.
- 4.8 The Trust's corporate risk profile (showing the number of corporate risks by current risk rating) is as follows:

4.9 The areas of most significant risk (those rated Very high risk) within the Corporate Risk Register at present are:

- Managing emergency demand
- Delivery of the financial recovery plan
- Substantial unplanned expenditure or financial penalties
- Workforce capacity & capability (recruitment, retention & skills)
- Compliance with fire safety regulations & standards
- Compliance with clinical governance regulations & standards

4.10 A summary report from the full Corporate Risk Register is attached as **Appendix II**.

Operational risk registers

4.11 Each directorate now has in place comprehensive risk register covering intrinsic risks to their core objectives relating to quality and safety; service continuity; finances; and reputation and compliance.

4.12 All risks on operational risk registers are also recorded on and managed using the Datix system.

Emergent risks

4.13 From time to time additional risks will be identified that are not captured within the Trust's risk framework. These will be classified as 'Emergent risks' and will be individually assessed and managed in accordance with the Trust's Risk Management Policy.

4.14 At present the following emergent risks are recorded on the risk register:

Title	Rating (current)	Risk level (current)
Continuity of aseptic pharmacy services (corporate)	20	Very high risk
Safe and responsive delivery of Non-Invasive Ventilation (NIV) at Lincoln County Hospital	16	High risk

Title	Rating (current)	Risk level (current)
Delivery of the E-prescribing project (corporate)	12	High risk
Paediatric services at Pilgrim Hospital, Boston (Women & Children's Services)	12	High risk
Safe and responsive delivery of Non-Invasive Ventilation (NIV) at Pilgrim Hospital, Boston	12	High risk
Delivery of the Pilgrim Hospital inpatient ward reconfiguration	8	Moderate risk
Delivery of the Quality & Safety Improvement Plan (QSIP)	8	Moderate risk
Delivery of the Trust's elements of the STP	8	Moderate risk
Delivery of the Electronic Patient Records project (corporate)	8	Moderate risk

Risk ratings

- 4.15 A copy of the Risk Scoring Guide that is used to evaluate all risks that recorded within the Trust's risk registers on Datix is attached for reference as **Appendix III**.
