

ULHT OPAT Service

The Outpatient Parenteral Antibiotic Therapy (OPAT) service is taking referrals from all wards across ULHT

This service is for patients that do not require any further hospital care other than the administration of IV antibiotic therapy where treatment with oral antibiotics alone is not feasible or can potentially make arrangements to have these IV antibiotics administered safely in the patients' own home or care setting.

Please use the e-referral system to make a referral to OPAT

If you require any further information or if you would like to discuss a patient with the OPAT team, you can contact us in the following ways:

OPAT@ulh.nhs.uk

Isabel Sze Wing Fok (OPAT & Antimicrobial Pharmacist):
01205 445973
Sally Blow (Venous Access & Lead OPAT Nurse):
07766 468407

OPAT office:
01522 573735
01522 307494

Patients will then be screened by the OPAT Team to assess suitability.

Patients on the OPAT service will remain under the care of the OPAT Team for all aspects relating to their IV therapy.

The parent team must commit to regular outpatient follow up appointments for monitoring of the relevant condition.
