

This QR code also is the key to the **ULHT Sepsis Clinical Decision Tool**

Three simple questions

- 1 - What level of sepsis is the patient at right now?
- 2 - Any idea where the sepsis may be stemming from (source)?
- 3 - Are they penicillin allergic?

And instant advice on which antimicrobials to prescribe according to ULHT Trust Guidelines!!

DO YOU KNOW...? The ULHT antimicrobial Guidelines are accessible via Microguide!!

Scan this QR code for instant access, no need to download the app (but you know you want to...).

Enter access code 8725 when prompted

Management of Infections in Adult Patients
Short Guide to Antimicrobial Recommendations in SEPSIS of known source

For management of SEPSIS of unknown source in Adult Patients – see separate poster

If in doubt, please contact the on-call Microbiologist through switchboard, or the Antimicrobial pharmacist team (available Monday-Friday 9am-5pm)

Belinder Sells, Consultant Antimicrobial Pharmacist (JCH) Ext: 327684 Mobile: 07385 823542
Sue Liver Lee, Senior Antimicrobial Pharmacist (JCH) Ext: 373444 Mobile: 07385 823089
Isabel Scrimgeour, CPAT and Antimicrobial Pharmacist (Hwb) Ext: 442974 Mobile: 0740700926

Not sure which antimicrobial pharmacist is around? Call the office on 01522 573735

Access ULHT antimicrobial guidelines via the Microguide App (through App store or Google Play), and select Lincolnshire STP guided, or via the ULHT Intranet antibiotic pages (also hosts Microguide webviewer links, ULHT genotoxic calculator, educational videos and much more).

2022

See antimicrobial guidelines for further detail such as calculating ideal Body Weight (IBW), Vancomycin and Gentamicin dosing and monitoring, etc.

Issue date: 01 Jun 2022 Review Date: In-Line with Path Links Antibiotic Formulary & Prescribing Advice (2024) DO NOT use after 31 Dec 2024

Look out for the Blue Man poster, on display in all clinical areas. It summarises recommendations for sepsis based on suspected source, is really pretty, holds the QR codes to the antimicrobial-verse AND contact details for the Antimicrobial Pharmacist Team.

Can't see a Blue Man Poster on display? Give Pharmacy a shout, and we will sort it out!
