Product Description

United Lincolnshire Teaching Hospitals NHS Trust uses this product to make sure that you do not stay in hospital any longer than is absolutely necessary. It lets your care teams see relevant information about you at the same time in the same place to arrange your discharge from hospital. This allows your care teams to work together to make sure you have all the care, equipment, medication and support you need to be discharged from hospital safely as soon as possible.

What are the purposes for processing my personal data in this Product?

This Product processes personal information (called 'personal data' under data protection laws) about patients who are in hospital and require a discharge plan to support the better coordination of their discharge from hospital with all of the organisations involved in their care. This includes information about your health, medical condition, and the medication you are prescribed. The Product enables your care team to more effectively coordinate your discharge.

- telephone number
- date of birth
- gender
- sex
- NHS number or hospital record number
- health information, including information about your medical condition, symptoms, diagnosis and medication

Personal data about members of staff involved in the delivery of care may also be processed when using this Product, including their names and email addresses.

Who is my personal data shared with?

Your personal data is accessed and used by health care professionals from both the hospital and other organisations, Lincolnshire Community Health Services NHS Trust and Lincolnshire County Council who are providing you with individual care and treatment, and support staff who need to support health care professionals to administer your care journey.
