

Family Liaison Officer

Reference Number: ULHT-LFT-4056 v1

Issued: September 2025

Review Date: September 2027

At United Lincolnshire Teaching Hospitals NHS Trust (ULTH) we do all we can to make sure that those who use our services receive high quality care. Unfortunately, sometimes people do come to harm whilst in our care. There can be a number of reasons why this happens, but if something unexpected happens it is vital we learn from this. This can help us improve the standard of care we give to patients.

What does this mean for you?

We know this may be a very distressing time for you. It may feel difficult for you to be involved but we want to give you the chance to ask questions and be heard. This is to understand what has happened and to be fully involved in our investigation. You can have as much or as little involvement as you would like and you can change your mind at any point about your participation.

Family Liaison Officer (FLO)

A Family Liaison Officer (FLO) can support you with the investigation process. The role of the FLO is to support patients, families and carers in having the opportunity to ask questions to understand what happened. A FLO will make sure you are treated with compassion and professionalism in respect to your individual needs.

You will be given time and space to share what you know about what happened. A FLO will work with you to understand the questions that you have and will endeavour to answer these as fully as possible within the scope of the investigation. Sometimes investigations won't be able to provide answers to all your questions, but a FLO will do their best to find answers and if they can't they will tell you why.

A FLO is available to support you at any point during the investigation process and can help you:

- Share your experience and what is important to you.
- Describe what you would like to be looked into as part of the investigation.
- Make sure your views and experiences are listened to and included in the investigation.
- Update you on the investigation progress.
- Explain terminology used in the investigation and the report.
- Work with you to meet any support needs you might have.
- Advise you about other organisations and resources that can help.

A FLO is not able to:

- Provide counselling.
- Take over your investigation.
- Provide direct referrals to other health services.
- Investigate or find out about the care provided by another healthcare organisation.

It's really important that you understand what is happening, don't be afraid to ask for support:

Family Liaison Officer

Telephone 07907 701792

Please see below some support services which may be helpful to you:

Cruse
